PROFESSIONAL SUMMARY

Full-stack Web Developer with 3 years of experience architecting and deploying scalable web applications. Expertise in the PERN stack along with robust backend infrastructures and modern frontend frameworks. Proven ability to integrate and manage continuous integration pipelines via Azure DevOps, delivering high-performance software solutions.

WORK EXPERIENCE

Agapay (Mobile Medical Companion) **March 2026 – May 2026**

Full Stack Developer

- Designed and deployed robust RESTful APIs using Python and FastAPI, orchestrating serverless microservices via Azure Functions.
- Configured network request handling using the Dio package to ensure reliable data transmission across unstable network conditions.
- Architected NoSQL database schemas to securely manage and parse patient-reported telemetry and health metrics, resulting in an efficient data retrieval process.
- Collaborated with stakeholders to assess user needs, ensuring software solutions meet their requirements effectively.
- Provided clear instructions and support to the project team regarding API functionalities, fostering enhanced communication.

Spark (Smart Parking Management System) **September 2025 – November 2025**

Full Stack Developer

- Architected and deployed a scalable parking management web application using the PERN stack, which enhanced user engagement by ~40%.
- Engineered an optimized spatial routing engine utilizing a Greedy Algorithm to reduce driver wait times by approximately 30% and maximize lot capacity.
- Implemented a secure, low-latency entry/exit workflow utilizing automated QR code verification, improving access speed by ~20%.
- Managed the end-to-end software development life cycle using Azure DevOps (ADO), tracking sprint deliverables through Azure Boards.
- Enforced code quality through branch policies, ensuring a 95% adherence rate across the development team.

EDUCATION

Bataan Peninsula State University - Main Campus **2023**

Bachelor of Science in Computer Science Major in Software Development

SKILLS & AWARDS

- **Skills:** JavaScript; Java; Python; Dart; C#; SQL; React.js; Tailwind; Flutter; Node.js; Express.js; FastAPI; RESTful Architecture; PostgreSQL; NoSQL; Github; Azure DevOps
- **Awards:** Top 10 Finalist in AI in UX FinTech Home Credit Hackathon out of 60+ schools; 3rd Place in Microsoft Word - Philippine Championship; Top 10 Finalist in Hackathon SikapTala: National Computer Science and Information Technology Competition out of 70 teams; 4th place in Codechum National Programming Challenge - Group Stage 4; President's Lister since 2023
